

HOME BREWING UNIT INSTRUCTIONS

NO BREWER FOR YOUR ECOTEA™?
NO PROBLEM!

Here is a quick and easy, do it yourself home brewing unit instruction manual

PARTS LIST: (Below is a picture of all the parts you will need and can find it at your local pet store)

A: 1 x 15 Litres/min Air Pump

(Aquarium air pumps ca work but may not provide enough air flow)

B: 1 x Air Diffuser

C: 3 x Plastic Tubing

(Length 2-3 ft., you can customize it to your needs)

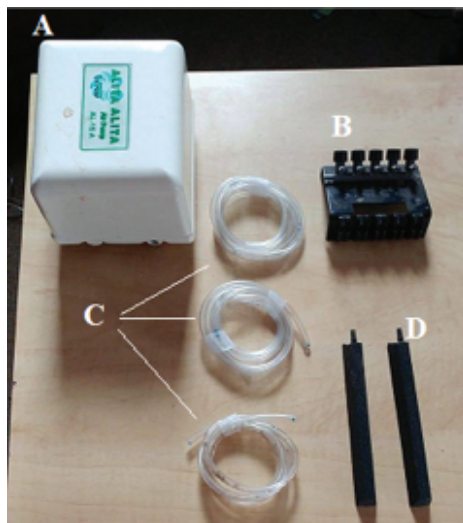

D: 2 x Air Stone

(You can have more if you wish)

E: 1 x 5 Gallon Pail

F: 1 x Mesh Bag

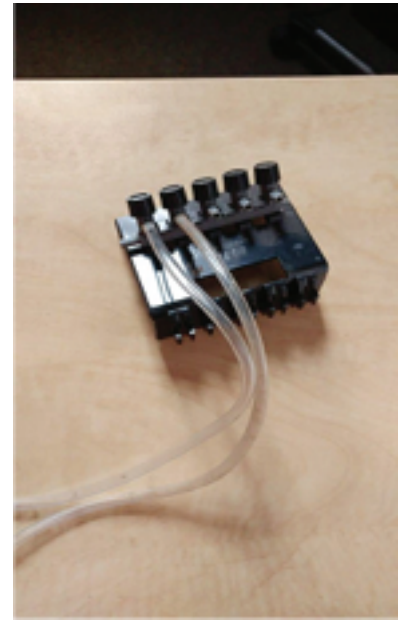

(An old sock can work too)

ASSEMBLY:

STEP 1

Attach one end of the air hose to the air stones and the other to the air diffuser.

STEP 2

Attach the air pump and diffuser together with another air hose.

STEP 3

Lower the attached air stones to the bottom of the 5 gallon pail.

STEP 4

Fill with water and turn on the air pump. You are now ready to brew EcoTea™!
